

Advanced CIT Certification Class

~Class Overview~

The Advanced Crisis Intervention Class (ACIT) is designed to be a highly interactive five-day, 40-hour class, which focus on going beyond basic verbal de-escalation skills. It is designed for sworn law enforcement officers working in a detective or mobile crisis capacity. During the week-long class, participants will reinforce their knowledge regarding crises and how people respond or behave in crisis. The concept of mental illness and its effect on the verbal interaction will be further addressed via high-intensity scenarios.

Participants are expected to go beyond a basic awareness of mental illness and human behavior into an advanced arena of threat assessment techniques and approaches. We will actively engage the attendees in over ten hours of live scenario situations that are not only field-based crises but enhanced to include case management and analysis, profile development, and long-term threat mitigation. One of our goals is to teach detectives how to be proactive instead of reactive. We believe that if you can predict or anticipate behavior with some degree of accuracy you can create a safer city, county, or state.

Through the class activities, participants will gain an overall understanding that Advanced CIT goes beyond the short-term management of a person in crisis into a more challenging realm of long-term pattern identification and control. We teach the audience to prevent the crisis by understanding the crisis cycle.

The class instructors will be current law enforcement officers, police psychologists, mental health providers, and retired law enforcement officers with extensive expertise and experience in verbal de-escalation and crisis mitigation.

Course Director: Dr. Troy Rodgers

Dr. Rodgers is a police psychologist based in Albuquerque, New Mexico. He has a master's degree and a doctorate in clinical forensic psychology. He has worked with law enforcement officers for over 20 years. At the present time, Dr. Rodgers works as a consultant to over 500 local, state, and federal law enforcement, firefighter, ambulance, dispatch and corrections agencies.

Dr. Rodgers is a highly sought after trainer in the field of psychology and criminal justice. He is routinely utilized as an expert by multiple regional media outlets. Dr. Rodgers is also certified as a Professional Lecturer and Master Instructor by the New Mexico Department of Public Safety Training Academy.
